Spring 2012

A look at the new employee fitness center at Yale New Haven Hospital.

Featured Project

Yale New Haven Hospital Employee Fitness Center

New Haven, Connecticut

All-Brite Electric recently completed a 14,000-square-foot wellness center for the employees at Yale New Haven Hospital. The new facility includes a cardio area, free weights, spinning room, exercise room, stretching areas and men's and women's locker rooms. In conjunction with Bismark Construction Company, the area below the air rights garage was totally gutted and the fitness center was constructed.

All-Brite installed a new security system with an intercom for patron access, a new fire alarm system, and an extension of the existing power service to fit the electrical requirements of the center.

24-Hour Emergency Service

In the event of an electrical emergency after normal business hours, please call **(203) 937-7211** and follow the prompts. We offer:

- Quick Response
- Fully Licensed and Insured Electricians
- Courteous Service

Always there when you need us!

Reach For The Sky

All-Brite Electric recently purchased this new state-of-the-art bucket truck/material handler that will help us meet all your service needs, from changing light bulbs to installing new light poles. The bucket truck reaches up to a height of 46' and can lift up to 1,500 lbs.

Safety First!

On January 9th, we held our bi-monthly safety meeting, along with our bi-annual CPR and First Aid recertification class. All of All-Brite's employees are required to take the CPR and First Aid classes every two years as a part of our safety program.

Right: An All-Brite staff member practices his CPR skills.
